

In Honor of Teacher Appreciation Week

May 2 - 8, 2021

**You are amazing. You are heroes.
You make us so proud.**

It is quite a humbling task to try and adequately thank you for the remarkable work you've done this past year to keep your students learning and growing.

When your energies were depleted, you still motivated, inspired, challenged, engaged, and lifted up your students, day after day, helping them become all they were meant to be.

Even when you were in the throes of your own loss, struggle, and uncertainty, you selflessly opened your hearts and minds to your students, time after time.

When all that we love about being teachers was repeatedly tested throughout this pandemic, there you were, still doing all of the glorious, important, life-changing work that teachers do. And that makes you nothing less than a hero.

We could not be more proud to be your colleagues, nor more honored to lead your county association.

We are grateful for you, every day, but at this time, during this year, our gratitude is felt more intently and poignantly. It is our sincere honor to recognize each of you this Teacher Appreciation Week.

Sue, Andy, Esther, and Jenn
